South Waziristan: Another Big Blow to TTP 8 Terrorists Killed, Numerous Injured

Security forces conducted highly successful intelligence based operation in Shin Warsak area of South Waziristan. 8 terrorists got killed while numerous injured and apprehended. One security personal got martyred, while 3 got minor injuries during operation.

According to details, security forces surrounded terrorists hideout in Shin Warsak, which was dug underground and converted into a cave. Terrorists resisted for about 10 hours and tried unsuccessfully to hide among local population and suffered heavy casualties.

Prominent commander Jan Muhammad alias Charg, affiliated with TTP Toor Hafiz Group was among slain terrorists, who was involved in terrorist attacks on security forces, extortion, smuggling and target killing.

The real question is that, how terrorists were living in populated area and who were involved in their facilitation. TTP always tries to hide its heavy casualties and will surely do so this time too.
