## **TTP's Public Enmity Exposed**

### **Another Attack on Developmental Projects of National Importance**

TTP terrorists have once again proved that these Khawarij are enemies of development and prosperity of Pakistani people by attacking officials deputed on very important developmental project in Bara Tehsil of Khyber district.

**According to details, work under CASA-1000 Power Project is ongoing rapidly to deliver electricity from Central Asia (Kyrgyzstan and Tajikistan) to Pakistan via Afghanistan. Today, TTP terrorists targeted officials transporting supplies to the same project with IED. Resultantly, Two officials got martyred while four were injured. Martyred personnel belong to Lower Dir and Waziristan.**

**With this cowardly attack, it has been proved once again that TTP terrorists are against every project of development and prosperity and want to obstruct it. Even before this, developmental projects in Waziristan have been targeted by terrorist attacks.**

Groups active for Public representation in Khyber district are reluctant to condemn this terrorist attack, which strengthen the suspicions that those groups might be involved in facilitation of TTP.
