Bara Attack; TTP's Fake Claims and Facts

After cowardly attack on officials deputed on CASA 1000, an important project for country's development and public prosperity, TTP is resorting to fake statements and exaggerated claims by unsuccessfully showing martyrdom of eight officials instead of two.

Pakistani people and security agencies are proud of their martyrs and bury them with full national honor. News of two martyred officials in Bara terrorist attack was reported on all media channels today and large number of people attended their funeral. On the other hand, TTP disassociates itself from their terrorists by running away, leaving behind their dead bodies.

People know the reality of TTP, while rejecting its fake statements and appreciate great sacrifices of their martyrs.
