## North Waziristan: Security Agencies Successful Operation Two Terrorists Including Afghan National Killed

Security agencies successful intelligence based operation in Razmak area of North Waziristan. Two terrorists including an Afghan national got killed. Weapons, ammunition and suicide jackets recovered.

Upon information of terrorists movement, security forces targeted them, when they were going to carry out terrorist activity. During exchange of fire, two terrorists got killed. TTP Khawarij left body of Afghan terrorist and fled. It has often been seen before as well that after killing of Afghan terrorist, TTP leaves his body unattended and avoids showing any kind of linkages with him.

TTP's increased use of Afghan nationals in terrorist attacks against Pakistan is a matter of concern for Afghan Interim Government, which requires concrete measures to prevent Afghan nationals from becoming fuel for terrorism.
