## **Self-Interested Elements Active in South Waziristan Exposed**

Few self-interested elements from South Waziristan are pushing region and people into the fire of terrorism for the sake of minor financial gains.

**According to intelligence, some elements, after establishing contacts with TTP terrorists, call them to Waziristan in the name of Jihad and then inform security forces about them to create an atmosphere of unrest in the area.**

**These selfish people are neither interested in peace of Waziristan nor sympathetic towards TTP. They are only making money from the dead bodies.**

Locals of South Waziristan should timely inform security forces about such con men, so that swift action can be taken against them to ensure peace of the region.
