Nation's Message to TTP on the Occasion of Eid

On auspicious occasion of Eid ul Fitr, nation of Pakistan asks TTP to abandon terrorism and follow true spirit of Sharia and gives following message:-

- Terrorists should stop killing innocent Muslims and have mercy on their children too, who are being used as human shields.
- Terrorists should lay down their arms while recognizing Pakistan and its Islamic constitution.
- Allah is angry with you. Rich or poor, Pakistan is ours, its people, politicians and law enforcement agencies are all ours and we have to live together.
- You are nomads, have mercy on your children. Afghan government will not keep you forever by going against Pakistan.
- Tribal districts are prospering through development, where will you go? You cannot live forever by hiding like thieves.
- How long can you fight with weapons left by Americans, there is still time to give up.
- The state does not need to negotiate, but you do, so surrender.
- People of all schools of thought; scholars, youth, teachers, doctors, politicians, tribals and even organizations who oppose security forces are against you. Who is with you, look around.

People of Pakistan hope that you will definitely think about your actions and take the path of repentance. Because Allah likes repentance.

Happy Eid-UI-Fitr
