South Waziristan: Major Plot of Terrorism Foiled

Security forces executed highly successful intelligence based operation in Munra area of South Waziristan. Explosives prepared for placement in vehicle for major terrorist activity recovered.

According to details, terrorists had already completed their preparations with intent of targeting important installations with vehicle laden explosives. Security agencies took prompt action and recovered a cylinder full of 90 kg of explosives, landmines, mortar shells and equipment for making IEDs.

Security agencies are continuously achieving success with better strategies against terrorists, in which local support is playing key role and terrorists are being brought to a gruesome end.
