# North Waziristan: TTP's Terrorist Attack Foiled

Security forces foiled terrorist attack of TTP in Haiderkhel area, adjacent to Mir Ali North Waziristan. Meanwhile, TTP is falsely claiming multiple casualties of security forces, which is highly absurd.

**According to details, terrorists attacked security forces' vehicles while they were on routine patrol last night. However, security personnel promptly responded and foiled the attack, forcing terrorists to flee. Several terrorists got killed and injured in exchange of heavy fire.**

Due to continuous failures and internal rifts, coward terrorists of TTP are highly demoralized, while terrorist leadership is relying on fake statements to save their declining influence. Public is well aware of the reality of Khawarij and reject their fake statements.
