

Current Situation - TTP Forced to Give False Explanations

Solution to current problems of Pakistan lie in following the constitution, which doesn't have any room for terrorism and extremism. Recent terrorist incidents have led to strong public backlash and hatred against Khawarij while after condemnation statement by Afghan Interim Government, TTP leadership is impelled to give false explanations, while real facts are as follows:-

- (1) TTP's agenda is to create chaos in Pakistan and weaken the state, being only nuclear power in Islamic World, poking Khawarij's masters.**
- (2) TTP's appeal to police, peace committees and political figures shows restlessness among TTP ranks due to increasing cooperation between state of Pakistan, masses and security agencies against terrorism. While, TTP siding Pakistani religious scholars out of discussion, depicts their anxiety over recent fatwas.**
- (3) TTP's statement negating use of Afghan soil is highly absurd and highlights increasing pressure from Afghan Interim Government. It is evident that TTP's leadership are hiding in Afghanistan including Noor Wali Mehsud in Nuristan and Paktia, Sarbakf Mohmand in Kunar and Hafiz Gul Bahadur in Khost. TTP brainwashing Afghan citizens to instigate them for suicide attacks is a point of concern for Afghan Interim Government.**
- (4) After recent failures and severe public backlash, TTP claiming to establish political commission indicates their desire to negotiate with state of Pakistan. If TTP is desirous to negotiate with state of Pakistan, they have to respect constitution of Pakistan and surrender to state of Pakistan is the only way.**
