Lakki Marwat: Restlessness Among TTP Ranks with Discovery of Natural Resources Leading to Prosperity

Peaceful environment plays significant role in utilization of local natural resources further pave the way for development. New era of development and prosperity has begun in Lakki Marwat with discovery of minerals and locals are taking full benefits from the same.

TTP is concerned over the development journey in Lakki Marwat and their efforts to disturb peace in the area are in vain. Terrorists are not only targeting police and locals to disrupt peace in the region but have also become part of external conspiracy to keep Pashtun belt away from development and prosperity. TTP threatened locals of Lakki Marwat for facilitation and extortion but valiant locals rejected terrorism, stood by their security agencies and forced terrorists to leave the area.

It is worth mentioning that Cement factory built in Lakki Marwat houses about 70% of local workers. Factory related contracts are awarded to locals, local students are awarded with scholarships and free medical facilities are also provided to common people. While TTP Khawarij are anxious about development and prosperity in Pashtun belt, which shows their enmity with locals.

InshaAllah, soon Pashtuns and security agencies will get rid of these Khawarij and use these natural resource rich areas for development and prosperity of Pakistan and locals.
