

## **North Waziristan Suicide Attack, TTP Forced to Make False Claims**

After TTP's failed suicide attack in North Waziristan's Mir Ali, Khawarijs trying to project weak and false narrative having no reality, reflects defeated mindset of TTP.

**TTP's exaggerated statements after today's failed suicide attack in Mir Ali is to give false encouragement to its desperate and coward terrorists. TTP leadership making futile efforts to save its declining reputation by calling it as revenge for killed terrorists in Lakki Marwat and North Waziristan.**

**TTP is divided into different factions in this so-called war of vested interests, where unjust treatment by leadership is the main reason. It is evident that terrorists commanders including commander Gohar are enjoying lavish lifestyle, while common terrorists are facing difficulties and engage themselves in criminal activities to earn their living.**

TTP does not have impetus to launch ground attacks on security forces, who have stronghold in the area, thus terrorists are resorting to suicide attacks under extreme pressure, leading to extreme public hatred, which has cluttered TTP's leadership. Security forces have stepped up their operations against terrorists with locals support and are making a dreadful example out of Khawarijs and their facilitators.
