## Peshawar Suicide Attack Internal Rifts Among TTP

TTP Khawarij martyred innocent worshipers and disrespected Holy Quran in Peshawar suicide blast, after which rifts among various TTP groups have intensified.

According to sources, fierce battle is ongoing between two TTP groups in adjoining areas of Pakistan border in Kunar province of Afghanistan, in which eight terrorists including four important commanders have been killed and many others injured. One of these two groups is opposing Peshawar suicide attack amid public backlash, while the other group is in favor of attack. The intensity of internal rifts have eventually turned into a fight.

It is also worth mentioning here that various factions of TTP are deeply concerned about unfair appointments of important positions by Mufti Noor Wali and are searching for excuses to defect from him.

TTP's business of making young and poor children the fuel of hell with temptation of heaven is now exposed and they are facing serious difficulties in preparing suicide bombers from Pakistan, so they have turned their attention to Afghan youth to which Afghan government must pay attention.
