PUBLIC VOICE

Growing Public Hatred - TTP's False Statement to Distance from Extortionists

Recently, Pakistani public, especially Pashtun tribes, have openly expressed their hatred towards TTP, after which TTP leadership has panicked and making efforts to seek public sympathy.

To cover up for extortion and gain public sympathy, TTP in a recent statement is trying to discredit their affiliation with extortionists, while giving a fake WhatsApp number to locals to report extortion cases to get rid of extortionists. Public is fully aware of TTP extortionist gangs and reject their false statements.

Recently, CTD has exposed several TTP extortionist groups, having killed and arrested several terrorists, including TTP extortionist Liaquat who was killed in Khyber. Moreover, arrested extortionists include terrorists of Shenye group from FR Peshawar, Rahim group from Bara Hasan Khel and Ajnabi group from Khyber. These terrorists were used Afghanistan numbers to contact locals for extortion.

Due to increasing financial difficulties, TTP is involved in extortion. Security agencies have devised effective strategies to prevent extortion and TTP's extortionists are being brought to their end.
