## TTP Facing Internal Rifts

Reliable sources have confirmed explosion of an Improvised Explosive Device (IED) in a shop in Shonkri area of Kunar, Afghanistan, in which four terrorists of TTP's sub faction Tehreek-e-Taliban Mohmand (Jammat-ul-Ahrar) have been killed.

Slained terrorists includes Shamsheer, Mashriq, Sohail and Saifullah. Reportedly a girl, daughter of slain terrorist Mashriq also got killed in the incident.

TTP is facing internal rifts after Peshawar Police Lines Mosque suicide attack, divided into different groups who are targeting one another. News of Noor Wali Mehsud being attacked in Kabul are also circulating. Reportedly, TTP terrorists have also been killed and injured recently in Kunar province as a result of infighting.

After continuous failures against security forces, terrorists are forced to conduct activities like suicide attacks on holy places, which has resulted in intensified internal rifts among TTP.

Insha Allah, this plague if TTP is nearing its end.
