United Nations Recent Report TTP's Lies Exposed

United Nations in its recent report has presented evidence of presence of TTP's Khawarij in Afghanistan and termed TTP as threat to regional security.

TTP's denial of its presence in Afghanistan after UN report is ridiculous, which is infact due to increasing pressure from Afghan Taliban. Meanwhile, TTP is unsuccessfully trying to divert attention from killing of seven terrorists by CTD in North Waziristan with these fake statements.

There are irrefutable evidences of TTP's presence in Afghanistan. In the past, many terrorist commanders have been killed on Afghan soil. Two days ago, TTP Mohmand has confirmed death of four of its terrorists in Kunar Afghanistan.

TTP's hypocrisy and lies have been badly exposed and Afghan territory is shrinking for these Khawarij, which is a major step towards their elimination.
