Bannu Attack Foiled Another False Statement by TTP

People are fully expressing their hatred against terrorists. TTP is trying unsuccessfully to gain public sympathy by declaring their failed attack as revenge for attack on locals.

One local child has been slightly injured in unsuccessful attack by terrorists, who is being given medical assistance by Pakistan Army.

Terrorists are increasingly frustrated by continued decline in local facilitation and forced to propagate false statements. On the other hand, with the mutual cooperation between security agencies and locals, terrorists are being eliminated rapidly. Great success has been achieved in recent days against terrorism.
