South Waziristan Zingara Operation: Numerous TTP Terrorists Killed

Successful operation of security forces in village Zingara of Tehsil Ladha, South Waziristan on information about presence of large number of terrorists and their hideouts in the area. As a result of intense encounter, 8 TTP terrorists got killed and five were injured in cross firing.

According to sources, terrorists belonging to Wazir area (Gohar group) were planning and carrying out terrorist activities in Mehsud areas instead of Wazir areas, using local population including women and children as human shields.

During operation, cowardly terrorists of TTP used children belonging to Mehsud tribe as shield, due to which two innocent children got martyred. State institutions took immediate steps to help and support bereaved families, while TTP is adding to hardships of poor people. Fearing public backlash, terrorist leadership is compelled to make false statements and is unable to explain why 8 graves were dug, who were buried there and why people of area are being prevented from going there, same has been confirmed by locals

If TTP terrorists have courage to fight, instead of using innocent people as shield, they should come upfront and fight security forces.
