Ullema-e-Haq Reject TTP's Anti - Army Stance

Serial No : 2

(Extract from the recent statement of famous religious scholar Mufti Abdul Rahim)

Fall of Baghdad, Andalusia, Mughal Empire and Ottoman Caliphate are the four major collapses of Islamic history. History tells us that during all the collapses, three entities were attacked, failing which stability prevailed. These include political, economic and defensive stability. These three pillars are the cornerstones of state and government. The nations having weakness in any of these pillars, suffers collapse. Presently the conditions are extremely challenging and Pakistan is last line of Muslim Ummah. Pakistan Army is the Army of Muslim Ummah. I say this with complete confidence and will be answerable for this on Judgement day.

Currently, political instability is at its peak and economic instability is evident to all. There is only one pillar which is left standing and that is Pakistan Army. After visiting numerous military installations and interacting and observing army personnel, I found a lot of religiousness among them. God forbidden, if this Army is weakened; our lives, our honor and our reputes, all will be at stake.

You will be unable to find such an Army in 1000 years. Baghdad would not have fallen had it been in possession of such an Army. Numerous countries around the world having insurgences could not survive, but due to the organization and professionalism of Pakistan Army, this country is safe.

Allah has given us such huge power. Army has only muslims and Pakistanis. There is no differentiation or secularism of any kind.

Whoever tries to distance the people of Pakistan from their Army is the biggest enemy of Islam and Pakistan, even if he is a scholar. May Allah keep our Army safe.

Ameen.
