

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

Serial No : 23

## Noor Wali Mehsud's Intellectual Inferiority and Religious Ignorance Exposed

Present-day Khawarij were hoping their so-called Mufti Noor Wali Mehsud would put forward a strong argument in response to Ulemas stance against terrorism and save their ideology of charging others with infidelity from humiliation. After continuous confusion spanning five days, Noor Wali Mehsud has finally has proven that real aim of this radical person is to spread religious chaos and terrorism in Pakistan.

**In a recent statement, Noor Wali Mehsud mentioned the fatwa in favor of Jihad, which was actually given after the US invasion of Afghanistan, and has therefore now become invalid after the withdrawal of the US from Afghanistan and has no legal status. Noor Wali Mehsud's use of several years old and invalid fatwa as an argument against the recent narrative of the renowned scholars reflects his religious ignorance and mental retardation.**

Terrorist Noor Wali calls Mufti Taqi Usmani his teacher on one hand while on other hand denies his statements, which itself is a hypocrisy. Who gave a fugitive terrorist, extortionist and kidnapper the right to question the Pakistani state and its scholars? If the terrorists believe in their ideology then instead of humiliating scholars they should face security forces on ground.

**It is also worth noting that Noor Wali is talking about implementation of the Islamic system, then on what grounds TTP hindered the development in the tribal districts, martyred innocent children and women, trained suicide bombers by brainwashing and performed all sorts of criminal activities by crossing limits of cruelty and brutality.**

Successful operations of security forces have broken backbone of Khawarij and a new era of development has begun in tribal districts. Concurrently, terrorist organizations like TTP are unsuccessfully trying to spread chaos in Pashtun belt at the behest of their foreign masters, but are being defeated by mutual cooperation amongst locals and state institutions.
