## Peshawar Suicide Attack - Modern-day Khawarij Exposed

TTP, so called claimants of Sharia system are targeting Pakistani people and security institutions with terrorist attacks at the behest of enemies of Islam. Terrorists have once again proved that they have nothing to do with Islam by carrying out suicide attacks on worshippers at holy place like mosque and also burning Holy Quran in large numbers. Infact, these people belong to that group who are referred as Khawarij in Islamic history.

**Islamic world's largest and most renowned university, Al-Azhar University, also condemned suicide attack on worshippers at Police Line Mosque and issued a statement mentioning that attacking worshippers and Mosques violates their sanctity, turning mosques into killing grounds and spreading chaos on earth is a despicable, criminal and terrorist act, which can only be committed by misguided people. Those are deprived of teachings of religion as well as moral and human values (i.e. khawarij).**

For the last two decades, KP police has been fighting terrorism valiantly, despite lack of resources and they have stood firm against the menace of terrorism.

Entire nation salutes indomitable sacrifices of KP police and stands with security agencies against this menace.
