Khawarij Failed Attempt to Incite Tribals Exposed

Khawarij are suffering at the hands of security forces, after being targeted and facing failure on every front. On the other hand, tribals have strongly rejected their agenda and are supporting security forces to eliminate them.

Khawarij are trying unsuccessfully to incite tribals with their misleading statement. While facts in context of this statement are as follows:

- ▲ **Khawarij are biggest enemies of tribals, who are targeting patriotic and progressive leaders and locals every day. In the last five months alone, these hypocritical Khawarij have targeted more than 50 locals from merged districts.**
- ▲ **Khawarij are involved in targeting schools and projects that contribute to local economic development, as well as extorting and kidnapping business community.**
- ▲ **Modern-day Fitna Khawarij are trying unsuccessfully to mislead locals by misinterpreting so-called Jihad as usual. While in fact they are facilitators of enemies of Pakistan.**
- ▲ **The goal of Khawarij from this so-called fight is only to gain power and money, for which they do not avoid suicide bombings in mosques and public places and taking the lives of innocents.**
- ▲ **If these Khawarij are so fond of Jihad, why do they not do anything for Kashmiris and Palestinians who are suffering from cruelty and brutality.**

Pakistan nation in general and tribals in particular strongly reject agenda of Khawarij and reiterate their determination to stand by security forces to eradicate them. InshaAllah, elimination of these Khawarij will prove to be promise of a bright future.
