South Waziristan: After Killing of 40 Terrorists TTP Leadership Forced to Make Fake Claims

After heavy casualties of terrorists in mountains adjacent to Sararogha, terrorist leadership has been in shock for several days and is now trying unsuccessfully to gain public sympathy by showing few misleading pictures, while actual facts are as following:-

- Upon intelligence and confirmation of nearby population, successful operation was conducted against terrorists in the area.
- Few terrorists were hiding in these hideouts along with their wives and children to make them appear as local tribes.
- After deaths of terrorists, TTP confirmed death of family of terrorist leader Dawood to public representatives and requested for burial of their dead bodies besides other terrorists.
- After operation, local population thanked security agencies for ensuring safety of their lives and property and getting rid of terrorists.
- Unfortunately, terrorists themselves are using their wives and children as human shields and are getting them killed by hiding behind them.

Security agencies are guarantors of security of peace-loving people and terrorists are being wiped out with public cooperation. Instead of making false statements, TTP should admit its failures and surrender to avoid further casualties.
