On February 15, the most wanted and notorious terrorist leader Faridullah alias Parake was killed in a clash with local tribes in Darikhel, a suburb of Tank, terrorists were trying to bury his body secretly.

The security forces had killed four more terrorists in a timely and highly successful operation based on intelligence, including one of the most important ringleaders, Badr Mansoor, whose body is in the possession of the security forces.

However, the Khawarij had hidden the body of the terrorist Parake in a house in a remote area and were trying to bury the body, which was recovered today by the security forces in a highly complex operation.

The tribal people of Tank have once again proved that they will not tolerate the presence of Khawarij in their land by standing against the terrorists and will fully support the security forces in their elimination.
