PUBLIC VOICE

Banned TTP Forced to Hypocrisy and Lies as Usual

Since yesterday, banned TTP is trying to propagate fake statement about their failed attack on Engineer Ameer Muqam in Shangla and exchange of fire with police, which is far from reality.

Local sources have already confirmed that police conducted a search operation in some areas led by DPO based on suspicion, but no evidence of terrorists presence was found.

Last year, banned TTP faced severe embarrassment and public backlash in Swat and adjoining areas, after which terrorist leadership is trying unsuccessfully to spread commotion through fake propaganda.

Banned TTP today in its latest statement has hinted at targeting public representatives who are fighting against terrorists, which exposes its defeatist mentality and negates its own fake manifesto.

Public know that banned TTP has lost its fighting capacity and is limited to fake claims on social media.
