Security Agencies Organized Operations Against Terrorists and Facilitators , TTP Suffering From Severe Depression

Recently, security agencies have tightened crackdown on terrorists and their facilitators in coordinated strategy that has caused irreparable damage to TTP and has seen its struggling organization collapse.

On the one hand, Khawarij who are suffering from extreme confusion, are making baseless accusations with the help of lies and propaganda while they are unsuccessfully trying to intimidate the valiant locals.

According to TTP's recent statement, following are some facts:

- ▲ **TTP has been hit hard with killings and arrests of its terrorists and facilitators while suffering from growing internal rifts.**
- ▲ **Return of illegal Afghan refugees has left TTP in mourning, as their facilitation network has become almost inoperative.**
- ▲ **On the one hand, TTP is carrying out attacks on religious scholars gatherings in collaboration with ISIS while on the other hand, it is asking same scholars for help to save their facilitators.**
- ▲ **TTP's failed attempt to scare public and security agencies is actually an admission of defeat by Khawarij.**

Valiant Pakistani public and security agencies are united against these Khawarij and are actively working for their painful end. Expression of distress by these anti-Islam and anti-peace terrorists is actually promise of peace and stability.
