Afghanistan: TTP's Fake Claim Regarding Drone Attack Exposed

Yesterday, an explosion occurred in the house of terrorist commander Maulvi Farooq, associated with TTP Hafiz Gul Bahadur group in Ismail Khel village in Khost province of Afghanistan, killing his wife and 2 children. TTP falsely attributed incident to a Pakistani drone attack after blast and unsuccessfully tried to mislead Afghan officials and incite them to do anti-Pakistan activities.

According to details, after TTP's anti-Pakistani accusations, Afghan Interim Government conducted a thorough investigation into the incident and denied any drone attack based on ground facts, while terming it as an explosion of explosives inside house.

According to sources, there were reports of differences between Maulvi Farooq and rest of terrorists for a few months and blast is a link in this chain, which was aimed at terminating Maulvi Farooq along with his family.

After growing internal rifts, TTP terrorists are blowing up their own companions with bomb blasts, while trying unsuccessfully to damage relations between two neighboring countries by blaming Pakistan for these attacks.

Afghan interim government should play its role in regional peace and development by expelling these terrorists and conspirators from its land.
