TTP's Use of Poor and Oppressed Afghan Children for Terrorism

After martyrdom of police constable in Mohmand District (Khanqah) last night, a young Afghan child involved in terrorism was arrested during a joint search operation in the area.

Wanted terrorist was arrested in fierce exchange of fire, while search operation is in progress to find remaining terrorists.

Due to growing public hatred, TTP is facing serious difficulties in local facilitation and manpower and is using poor and vulnerable Afghan children in terrorist activities by luring them with money.

In such circumstances, it is responsibility of Afghan Interim Government to take effective measures to prevent its citizens, especially children, from being used in terrorism by TTP and to ensure elimination of terrorists.
