North Waziristan; Highly Successful Operation by Security Forces Against Khawarij, Four Khawarij Sent to Hell

Four terrorists were killed as a result of highly successful operation by the security forces on timely identification of terrorists movement in North Waziristan (Spinwam). Weapons, ammunition and communication equipments were recovered.

On the basis of intelligence and timely identification of terrorists movement, security forces deployed in the area successfully targeted terrorists by ambushing them at different places.

Four terrorists were killed in the fierce exchange of fire. Slain terrorists were wanted in various acts of extortion, abduction of officials of Mari Petroleum Company and terrorism.

It is a sign of traditional hypocrisy of coward leadership of TTP that they are unable to even accept their dead terrorists due to increasing pressure from families of slain terrorists to have killed their children.

Security forces in North Waziristan have strengthened their crackdown on terrorists and with help of excellent intelligence mechanism, terrorists are being brought to terrible end, in which role of public cooperation is very important, Alhamdulillah.
