## **Announcements of Fictitious Organizations and Hypocrisy of TTP Exposed**

Defeated by security forces and suffering from severe public hatred, TTP Khawarij announced a fictitious organization called Tehreek Jihad recently and today launched a new fictitious organization called Ansar al Jihad on social media. These tactics of TTP are highly ridiculous and hypocritical, which even long-time allies of TTP are questioning.

Following are objectives of TTP behind establishment of these so-called fictitious organizations only on social media:

- ▲ **To reduce pressure on Afghan Interim Government to take action against TTP by making so-called organizations to claim responsibility for terrorist attacks.**
- ▲ **To avoid severe public reaction and hatred by targeting innocent people, women and children for terrorist activities.**
- ▲ **An unsuccessful attempt to scare minds of Pakistani public with names of new organizations and terrorist activities.**

Founders of this so-called terrorist organization Ansar al-Jihad (TTP) have not told where people of this organization are, who is its leader and how if anyone wants to pledge allegiance to him? Perhaps these fictitious names are yet to be decided.

Pakistani people are well aware of TTP's hypocrisy and strongly reject their brutal tactics and demand their immediate end from the state of Pakistan.
