TTP's Increasing Dependence on Afghan Citizens Identification of Six Khawarij killed in North Waziristan

On February 28, process of identification of six terrorists who were killed by security forces in the outskirts of Spinwam has been completed, while local sources have also confirmed death of a suicide bomber during the operation.

According to confirmed information, the dead terrorists belong to Afghanistan, details as follows:

- ▲ Muhammad Anwar son of Angoor Khan resident of Khost
- ▲ Hamza resident of Logar
- ▲ Faman resident of Logar
- ▲ Shabbir Jan alias Abid resident of Khost
- ▲ Gul Jaan resident of Paktika
- ▲ Talha alias Zarar

Abid Ullah son of Jamal (alleged suicide bomber)

Additionally, the 16-year-old alleged suicide bomber Abid Ullah son of Jamal, resident of Tir Tangi, North Waziristan is also among the dead terrorists.

Use of Afghan citizens by TTP in terrorist activities against Pakistan is a negation of claims and a question mark on Afghan Interim Government. Afghan Interim Government needs to take concrete steps to prevent its citizens from committing terrorist acts against Pakistan.
