Reality Behind Banned TTPs Statements on Country's Situation

Banned TTP's Fake statement on country's situation is actually an expression of frustration of group consisting of terrorists and extortionists over failure of agenda of capturing country's resources.

Nation is aware of TTP's origin and asks these questions:

- ▲ Why TTP pushed country into terrorism by becoming a tool of external elements for personal interests.
- ▲ Why were important projects of country's economy and public prosperity targeted?
- ▲ Why did TTP attack universities, colleges, schools and Mosques?
- ▲ Why did TTP target people of friendly countries engaged in economic development?
- ▲ Why is TTP extorting money from general public, businessmen, companies and contractors working on important projects?

After intense public hatred and state control over natural resources, TTP leadership is self-confessing its failure and frustration through fake statements.
