Suffering from Continuous Failures and Internal Rifts, Khawarij Forced to Make Fake Claims of New Groups Mergers

Khawarij hiding in Afghanistan are facing financial crisis and lack of manpower while after increasing pressure from government of Pakistan, Afghan interim government has also started operations against TTP.

Extremely panicked Khawarij are now continuously issuing fake claims about new groups joining TTP by showing criminals as fictitious groups through fake propaganda.

Khawarij are facing heavy casualties at the hands of the security forces in Dera Ismail Khan while these fake claims are aimed at encouraging their anxious Khawarij and giving impression that large groups are joining TTP.

TTP's extortion, selling Islam and public enmity have become evident, now no muslim can think of supporting and facilitating these Khawarij, Alhamdulillah.
