National Apex Committee's Decision to Deport Illegal Afghans After Failure of Khawarij Jihad Card, Forced to Play Sub Nationalism Card

During recent meeting of National Apex Committee, decision to take legal action only against illegal legal Afghans has been appreciated by entire nation, including Pashtun belt, because secret ingredient for Pakistan's peace and development of Pashtun belt is hidden in this decision.

On the other hand, outlawed TTP and other hostile elements have lost their senses because after this decision, their facilitation is also going to end. Details of how much TTP will suffer from this decision are as follows:

- ▲ **Most of TTP's extortion networks, who are already facing severe financial crunch, are run by Afghan nationals living illegally in Pakistan.**
- ▲ **This year there were 24 suicide attacks in Pakistan, in which 14 suicide bombers were Afghan nationals.**
- ▲ **Whenever actions have been taken against illegal activities including human trafficking, illegal Afghan refugees have been found involved.**
- ▲ **TTP realizes that Pakistanis have completely rejected them, but they will further face severe shortage of manpower after deportation of illegal Afghan nationals.**

It is worth noting here that recent actions are not against Pakistani Pashtuns or registered Afghans. The credit for such decision to deport illegal Afghan citizens also goes to TTP, who are taking advantage of their constraints and using them for their own nefarious purposes, which will no longer be possible, Insha Allah.
