Tank: Security Forces Highly Successful Operation Against TTP

A few days ago, after large number of killings of terrorists in uninhabited hilly area adjacent to Sararogha, left over terrorists were hiding in Tank and surroundings. Yesterday in Kitkot area, these terrorists martyred two innocent locals, Naseer son of Basir and Mashal Khan son of Zarif Khan, portraying them to be spies of security forces with the aim to spread fear among local tribes.

On the basis of intelligence and information of locals, security forces surrounded terrorists in Kiri Haider area of Tank. There are reports of several killings of terrorists in fierce encounter and exchange of fire, while two security personnel also got martyred during the operation.

Using all available resources search for remaining terrorists is ongoing. More casualties of terrorists are expected.

With Security forces well executed strategy and strong local support, terrorists are not finding any place to hide and TTP terrorists are constantly being targeted by security forces. Insha Allah, this war against terrorism will be brought to its end.
