## North Waziristan: Another Big Blow to TTP Eight Khawarij Killed by Security Forces

North Waziristan; In Shazaka, suburb of Shiwa, security forces in a highly complex and high-risk operation killed eight terrorists of TTP.

According to the details, security forces surrounded the hideout of the terrorists. Using best strategy, blocked all the escape routes and targetted them. In fierce exchange of fire eight khawarij were sent to hell.

Killed terrorists were involved in extortion, target killing and terrorist attacks on security forces and had planned a major terrorist activity. Locals have expressed satisfaction over the killing of a large number of terrorists. Cowardly hypocritical leadership of the TTP is hiding the killing of their khawarijs.

Security personnel deployed in Spinwam and suburbs are actively engaged in eliminating terrorists. These Khawarij are not getting a chance to hide or run away and they are meeting their fate very badly at the hands of security forces Alhamdulillah.
