Peshawar: Failed Suicide Attack by TTP Khawarijs

Peshawar (Hayatabad): TTP suicide bomber tried to target security personnel using explosives planted on vehicle. Public was saved from great loss by timely detection by security personnel. Suicide bomber got killed at the spot, while some security personnel got injured in the failed attack.

Suicide attacks are clear proof of TTP's ground defeat and cowardice. While these attacks expose Khawarij's anti-Sharia agenda, they also reflect mental depravity of TTP's misguided leadership.

In these suicide attacks, Khawarij are suffering their own losses, while hatred against them is increasing rapidly among people. Nation questions beastly Kharwarij who resort to so-called Jihad, what kind of Islam is this and where suicide attacks are permitted in Sharia.

After this suicide attack, severe consequences are expected for TTP in Afghanistan, while according to preliminary investigation, security agencies have compiled details of this attack within an hour.
