Khawarij's Stupidity and Fake Explanations on Reality of TTP Exposed in United Nations - Khawarij in Clutter Giving Fake Explanations

Statement based on the facts by Pakistani delegate in united nations security council have made Khawarijs of TTP deeply disturbed and have forced them to issue statements based on hypocrisy and lies. Following are some facts and questions in this context:

- ▲ The facts presented by Pakistani delegate in the Security Council and demand of an investigation is not new, according to the reports of other international organizations including the United Nations, TTP is not only present in Afghanistan, but they have safe havens, hideouts, organized training and complete freedom of movement
- ▲ At the time of US withdrawal, \$7.2 billion worth of US arms were left in Afghanistan, which are openly available to TTP in Afghanistan. If according to TTP these weapons are present in Pakistan, then why these modern weapons were not available to them before the US withdrawal.
- ▲ If TTP runs its economic affairs through people's donations, then why do these kharijitees resort to extortion, kidnapping for ransom, mercenary killings and dependence on foreign masters.
- ▲ In the videos released by TTP, terrorists are shown using American M-24 sniper, M-16, M-4 and other weapons. Which are being recovered in the operations of security forces.
- ▲ TTP legitimizes terrorism in Pakistan by bestowing titles such as "Disbeliever" and "System of disbelief" on foreigners and Americans. Why is Kharjite Noor Wali Mehsud repeatedly convincing these infidels that TTP has no external agenda and is not against them.

Not only the people of Pakistan but also international community is well aware of the reality of TTP. Afghanistan also needs to take concrete steps against TTP, proving itself to be a responsible state, otherwise it will face further isolation at the international level.
