South Waziristan; Successful Operation of Security Forces, Number of Khawarij Injured

Security forces ambushed and surrounded Khawarij in Sultana area of South Waziristan.

During fierce exchange of fire, several TTP Khawarij escaped with injuries. Security personnel remained safe during operation. Area has been cordoned and search operation is ongoing.

According to sources, there are confirmed reports of presence of Afghan terrorists in terrorist tashkeel, which is of course a matter of concern for Afghan interim government.

Series of failures of Khawarij at the hands of security forces continues and there is deep despair in the ranks of terrorists. After continuous successful operations, there is no place for Khawarij and they are not getting any chance to hide.
