## **Chitral: Locals Express Solidarity with Security Forces Khawarij Takfiri Agenda has Failed Miserably**

Patriotic and valiant locals of Chitral have always rejected takfiri agenda under the guise of so-called Jihad and with help of security agencies have crushed ill intentions of Khawarij.

Recently, once again Khawarij tried to infiltrate into Chitral using Afghan territory, which was foiled by timely and prompt response of security forces while Khawarij suffered heavy casualties.

**Locals value sacrifices of security forces for establishment of peace in Chitral and stand with their security forces in this war against Khawarij.**

**Entire nation saw how brave people of Chitral voluntarily came to the aid of security forces and actively participated in delivering required items to far-flung border areas.**

Of course, after such expression of love and solidarity for security forces, there is sense of deep disappointment among TTP ranks and terrorist Noor Wali Mehsud is not only forced to hide his large number of casualties but he himself is trying unsuccessfully to encourage coward Khawarij by reaching Afghan province of Nuristan.

Khawarij living on foreign enemy fundings is nothing other than fake propaganda and hypocrisy, which locals are exposing with their own statements. Khawarij have nowhere to hide because now Afghan nationals are also criticizing them.
