Waziristan: Extortionist TTP's Fake Propaganda Against Peace Committees Exposed

Recently, several TTP networks of target killing and extortion have been exposed with cooperation of security agencies and tribals, while TTP is facing serious financial crisis.

False accusation of banned TTP on Peace committees to cover up their extortion is very ridiculous, which actually shows effectiveness of these Peace committees and TTP's confusion.

Pretense of TTP's so-called organizational reforms is actually to rob people by forming an organized group of extortionists while internal TTP rift is also related to extortion.

Tribals reject TTP's hypocrisy and question why if TTP's leadership is based in Pakistan, then why fake contact number of Afghanistan or any other country is given. Hypocritical TTP is exposing itself with its fake statements.
