## South Waziristan: Security Forces Search Operation Against Terrorists Continues

There are confirmed reports of killings and injuries of several terrorists in security forces operation in Madi Jan area on presence of terrorists last night.

During a successful search operation on outskirts of Jandola today on May 29, security forces gathered important evidence about movement of injured terrorists.

According to intelligence, fugitive terrorists forced and threatened nomads and local tribes for terror facilitation in area adjacent to Madi Jan. However, search operation for terrorists is going on with public support and timely identification.

Fugitive terrorists will have no chance to hide and if any local person or tribe is found involved in harboring or facilitating them, action will be taken against them as per law.

**Why coward TTP leadership is not accepting these failures and why are they silent?**
