South Waziristan: One Khawarij Killed in Infiltration Attempt from Across the Border

Security forces foiled Khawarij infiltration attempt on Pakistan-Afghan border adjacent to Sarkanda border region of South Waziristan and killed one terrorist.

Security personnel posted on the border targeted terrorists when they were trying to enter Pakistani territory by cutting the fence.

Terrorists took shelter in a drain located on border, however, security forces using all their resources targeted terrorists with light and heavy weapons and killed one terrorist while remaining terrorists escaped leaving their killed terrorist behind.

According to reliable sources, tashkeel that tried to infiltrate consisted of close associates of Kharji Noor Wali, who had been trying to enter Pakistan for some time, but they are facing continuous failure.

Evil ambitions of Khawarij against Pakistan will continue to be crushed in the same way and every step towards Pakistan will be stopped with full force, Insha Allah.
