Extortionist TTP Frustrated by Public Backlash Unsuccessful Attempt to Distort Facts

Leadership of outlawed TTP is trying to cover up its exposed anti-Sharia activities, extortion, unnatural practices, lust for illicit wealth and internal rifts and is trying to safeguard itself from severe public backlash.

In the recent statement issued by TTP, lair Khawarij have tried unsuccessfully to show their detachment from extortion and to prove themselves as well wishers of public, while facts in this context are as follows:

- ▲ **TTP's so-called Minister of Economy, exiled Badri Mehsud, runs an organized network of extortion from Afghanistan. In which threatening calls and messages are given from Afghan mobile numbers.**
- ▲ **Internal rifts between TTP and its sub-groups often surface over distribution of illicit wealth obtained through extortion. For which these Khawarij do not hesitate to kill each other.**
- ▲ **Last year, 81 cases of extortion were reported in Khyber Pakhtunkhwa, in which more than 150 extortionists linked to TTP were arrested and 6 were killed. While biggest extortion network of TTP was exposed from Mohmand.**

Khawarij cannot in any way succeed in distorting facts and mislead people because public are well aware of their true nature. Extortion has been largely curbed with public cooperation and timely reporting. Soon the remaining extortionist Khawarij will also be under law, InshaAllah
