Khyber Pakhtunkhwa: After the complete coordination between the political leadership and the security agencies, the Khawarij are suffering from severe panic

After repeated failures caused by security agencies, the corrupt leadership of the Khawarij hiding on Afghan soil has focused all its attention on propaganda and is forced to resort to false narratives on a daily basis.

The political leadership of Khyber Pakhtunkhwa has once again given a clear message to the Khawarij in a recent press conference that all resources will be used against terrorists and their facilitators while the professional capabilities of the police will be further enhanced. After this statement, the Khawarij were forced to resort to lies while suffering from severe depression.

Here are some facts in this context:

- ▲ **The Khawarij are facing heavy casualties and are trying unsuccessfully to influence the morale of the valiant police force after the recent increase in the KP police capacity**
- ▲ **Threatening the police to withdraw from the war against terrorism is actually a proof of the cowardice of the Khawarij**
- ▲ **The zealous people, political leadership and security agencies are united against the Khawarij and are determined to eliminate them completely**
- ▲ **By using all the resources against the Khawarij, the series of joint operations will continue to bring these passengers of hell to a terrible end**

The people reject the misleading narratives of the Khawarij and demand all security agencies and the government to ensure the speedy elimination of these hypocritical anti-Islam outsiders.
