TTP's Increasing Dependence on Afghan Nationals for Terrorism in Pakistan

TTP is facing a severe shortage of manpower following heavy casualties from security forces and is increasingly dependent on Afghan nationals for terrorist operations. While Afghan interim government is silent on its citizens being pushed into terrorism. **In last one year, security forces have killed more than 70 Afghan citizens in several operations, on which Afghan interim government is resorting to hypocrisy.**

Recently, a resident of Afghanistan's Wardak Province, Mohammad Saleem Shaheedyar alias Tor Gul was killed by security forces, which has been confirmed by terrorist themselves.

Current situations are certainly worrying for Afghan Interim Government and belies their fake claims, which are affecting long-standing relations between two countries. The loss of this situation is only borne by Afghan government and Afghan people, while TTP is using them for its anti-Islamic agenda.
