Fake Explanations on Exposure of the Identity of Extortionist and Terrorists Khawarij

The extortionist, terrorist and anti-Islamic Khawarij are in dire straits after their organized network of extortion under the guise of so-called Jihad has been exposed and they are forced to give fake explanations.

In this context, outlawed TTP has unsuccessfully tried to distance itself from its own organized groups involved in extortion in its latest statement, while the actual facts are as follows:

- ▲ **Ongoing internal fighting between the main leadership of the outlawed TTP and its sub-groups is mainly due to differences over the distribution of haram wealth earned through extortion.**
- ▲ **Kharjite Noor Wali Mehsud's own nominee, the so-called Ministry of Economy, has actually been set up to distribute extortion money to the banned TTP, ignoring the rest of the sub groups.**
- ▲ **Last year only in Khyber Pakhtunkhwa, more than 150 extortionists of TTP involved in extortion were arrested and 10 were killed, while a large network of extortion linked to TTP was exposed from Mohmand.**
- ▲ **If banned TTP exists in Pakistan, then why foreign countries especially Afghan numbers are given every time to get information related to extortion.**
- ▲ **If Khawarijs are not involved in extortion, then from where are they getting financial resources, how are modern weapons being bought and how are their leaders living a luxurious life with their families while hiding in Afghanistan.**

People of Pakistan are well aware of the real sources of extortion and haram income of Khawarij and reject their fake explanations. The entire nation demands security forces to continue the operations against these hypocritical Khawarij until their complete elimination.
