Chitral: Heavy Casualties of Khawarij 15 Terrorists Killed and 19 Severely Injured

For past few days, presence of large number of Khawarij reported near Pakistani border in Afghan province of Nuristan. This morning around 250-300 terrorists attacked two Pakistani posts in border area adjacent to Kalash.

It is concerning that how come such a large number of terrorists gather in border area, who is financing them and where is Afghan Interim Government.

Despite such large number of terrorists, security personnel deployed at security posts not only foiled these attacks with great bravery and courage, but also inflicted heavy casualties to Khawarij and forced them to retreat.

Local shepards in the area witnessed heavy casualties of Khawarij, who have confirmed that Khawarij retreated with 15 dead bodies of slain terrorists and 19 seriously injured terrorists.

As always, peace-loving people of Chitral are not ready to tolerate presence of terrorists in their areas while terrorists have no place to hide.

After heavy casualties of Khawarij, reportedly more terrorists are gathering in border areas adjacent to Chitral. Surely, Khawarij are inviting great trouble for themselves and in case of any venture, their fate will be more terrible, Insha Allah.
