Torkham: Smuggling Attempt of Modern American Weapons from Afghanistan Foiled

Customs and security forces recovered modern American weapons from sacks full of onions while checking vehicle coming from Afghanistan to Pakistan at Torkham border terminal. Afghan driver has been detained from whom important revelations are expected during investigation.

Recovered weapons include modern American made M4, Kalashnikov, magazines, thousands of bullets of various types, American rifle grenades, night vision sights and laser beams.

Smuggling of advanced American weapons from Afghanistan to Pakistan, TTP's use of American weapons against security forces and Pakistanis is big question mark on Afghan Interim Government's claims of that Afghan soil is not being used against Pakistan. Pakistan expects Afghanistan to take concrete steps against TTP. Otherwise, Pakistan will be justified in unilateral action.
