## **International Support for Pakistan's Stance on Banned TTP has Caused Serious Frustration in Khawarij Ranks**

US special representative for Afghanistan, Thomas West's supported Pakistan's decisive action against outlawed TTP and regional terrorism, which left Khawarij in state of shock and are trying unsuccessfully to give false explanations by resorting to traditional hypocrisy.

In the context of TTP's explanatory statement, Pakistani nation ask Khawarij few questions:-

- ▲ **TTP's explanation that they have no external agenda is extremely ridiculous because world knows that TTP and ISIS activities are growing rapidly in Afghanistan.**
- ▲ **Why don't claimants of so-called Jihad speak against ongoing genocide and brutality of Muslims in Kashmir and Palestine instead of spreading chaos in Islamic state against order of Allah.**
- ▲ **Why does TTP repeatedly give fake explanations that they are not present in Afghanistan, when 13 of their commanders have been killed in Afghanistan in last three months alone and presence of these Khawarij in Afghanistan is accepted by whole world.**

TTP's TTA style statements is a question mark and a moment of concern for Afghan Interim Government who must think that UN is well aware of fact that TTP has full support in Afghanistan and this is only adding to international difficulties for an already isolated Afghanistan.
